

Dear Jenny

As having enjoyed your company on numerous occasions, I thought I'd appeal to you direct.

Quite simply, the letter that you typed to me from Bruce after we met in Boston in October 2014, has devastated my life (see copy attached). I've always been a positive person and used my best endeavours to make people feel happy, whether they be in fellowship or out of fellowship.

My motive in bringing Jim Hutchinson's and Ray Storry's matters to Bruce and yourself in Boston was none other than to bring healing into very difficult situations. I was simply caring for souls in need and I've always believed that that should not be limited to individual localities.

Quite simply, Bruce must have been influenced by false reports when he judged me to be deliberately sowing discords, creating division and interfering in other assembly's administrations. His judgement has filtered down to me through others - as evidenced in the attached mails and statements. Numerous requests by myself to be given the evidence that Bruce and yourself received from Sheffield and Nottingham in October 2014, have been refused.

It's clear that I have offended the ruling class in each locality, but the problem is that Bruce linked on with them rather than with me. This started a downward spiral into assembly rebukes, shutting up and eventually assembly withdrawal.

Would you be able to speak with Bruce to see if this whole situation can be reversed?

I'd very much appreciate hearing something back from you, if possible, by the end of the month. I can assure you that my [lancechristie7@gmail.com](mailto:lancechristie7@gmail.com) email is private. If you'd rather call me on +44(0)7488 550001. Alternatively my Skype address is lancechristie7 – I can be available on 48 hours notice for a Skype call.

Thanking you in advance.

Regards

Lance Christie
