Dear Bruce,

FINAL APPEAL

Let's cut to the quick.

Why did you conspire with your hierarchy to strip me of my dignity and devalue my company so that the brethren could get it cheap? You've used my family to do this and persuaded them to treat me with contempt.

What's even worse is that you've used your 'religion' and NSW law to support you in slowly wearing me down, hoping that I would capitulate under the pressure. One very toxic combination.

Your father said there was an unhealable breach between my father and Garth and me. You and your lawyers have said that Deb and my children can't be reconciled with me. Previously you rendered me unreconcilable with my son Yarl.

Was that all courtesy of the NSW 1989 [Stewards Foundation of Christian Brethren Act](#) which sets you up above the laws of the land, unaccountable to anyone?

I've written to many right across the brethren world informing them of your atrocities but they're your slaves so find it well nigh impossible to stand up for the truth.

You promulgate lies, love money and abuse members and ex members of your church. This renders you unrighteous – your commercial empire may seem impregnable but it's actually tottering

Your only hope is to climb down from your perch, get real and plead for mercy. Just be honest, own up to the truth and try repentance.

Yours sincerely,

Lance J Christie

PS The police are aware that I've sent you this communication
